Term 2 2020

In Term 2 students learnt about health, nature, body, medicine, exercise and computers. Students created presentations about Australian Flora and Fauna then participated in an excursion to the Perth Hills Discovery Centre to learn about protecting endangered animals in Western

Australia.

This term we had a focus on health which included information about how to stay healthy; how to count calories; and fun ways to exercise. Students learnt how to play the popular sport called

netball.

Included in the health unit, students learnt how to make a doctor's appointment and vocabulary related to systems in the body such as the digestive system, respiratory system and circulatory system.

—Mrs Gard

About Morley Senior High School

Morley Senior High School is a co-educational six-year school located in Perth's Northern Suburbs. It is near several bus and train stations, allowing for easy access to Perth city and beautiful beaches. Students range

in age from 11 years old (7th grade) to 18 years old (12th grade). Special programs at Morley include the **Language Center** for international students wishing to study intensive English, **Aviation** for students wishing

to learn to become pilots, and **Multimedia and Broadcasting** for students wishing to work in news media. Students have the opportunity to study many interesting subjects during their time at Morley SHS.

Perth Hills Excursion

Setting traps for feral cats and foxes.

On Wednesday July first, my class and I went to the Perth Hills Discovery Centre. I was very happy because I saw my friends and I laughed. I also saw new animals like the chuditch and echidna. I saw some new trees and plants and I listened to some music on the bus. I played games with my friends and we saw birds when we ate our lunch.

—Ahmed

On Wednesday July first my class and I went to the Perth Hills Discovery Centre. We didn't study in the school and we left the school that day. When we arrived in the Hills, the woman explained about the animals that live in the Perth Hills and the flora and fauna. After that, my friends and I got break time. During the break time we were eating our snacks and took some photos. Then we followed the woman and she ex-

plained about Australian animals and how to trap them. We made teams and my team installed our trap on the ground. We walked around and I saw many plants. Suddenly something made a sound and our team checked our trap. Inside was a soft toy that looked like an animal. It was a funny situation.

After that we followed another person. He taught us how to measure trees. He gave us tools to measure, but it was too difficult so I gave up. We also saw real animals. The animals walked under our feet. My class saw a young kangaroo and other things.

I was tired, but it was a good experience and I made memories with my friends.

—Jooyoung

Body and Health

Students learnt lots of useful information about health, medicine, body and science terminology related to biology.

After learning about the parts of the body, inside and out, students played several games acting out

verbs related to the body and drawing pictures of them. Words like sneeze, sniffle, sob, breathe and wink were funny to act out and guess.

In sports class, students were able to monitor their heart rate and calculate it

using math. Next they participated in exercises such as yoga and martial arts, then calculated their heart rates again.

After learning about making doctor's appointments, students created dialogues and practiced explaining injuries and illnesses in English.

Starting at a New School

In February I came to Morley Senior High School for the first time. The first day when I came to school I felt scared because I thought there wouldn't be any Vietnamese people here. I thought I won't have new friends, and speaking English all the time would be very difficult. But after I came here, I realized that the school is very multicultural and there are students from Vietnam and also many other countries. I felt very happy.

I like studying here because many teachers are very friendly and they teach us very well. It feels nice around the school also. There are many trees and beautiful flowers and plants. In my school there are basketball courts and I play basketball every day.

I think I will learn many things from my English classes and from Morley. It is a good place to study.

—Henry

King's Park

THE BEST PLACES IN PERTH

Where is your favorite place to go in Perth?

1 BEACHES

The number one favorite place is the beach. In Perth there are many beautiful, clean beaches with lots of fun activities. Scarborough beach has a skate park, basketball court, playground and picnic areas. There is even a new swimming pool with views of the ocean.

2 CITY

Perth City has undergone a huge renovation with the addition of Elizabeth Quay and Yagan Square. Students can easily get to the city on the public transport called Transperth, which is safe and fast. The city often hosts festival and special events, many of which are free. Perth is located on the Swan River.

3 SPORTS STADIUM

Perth's new stadium was built in 2017 and has state-of-the-art sound, lights and seating for fans. The stadium hosts sports events as well as music concerts. The stadium cost 1.6 billion dollars and voted Best in the World for architecture and design.
